1 December 1961

Dear Ed:

This letter is the result of discussions among [ ]  
[ ] and myself concerning the sterility  
of pertinent reference information in our local area.  
Your remarks to me last week triggered a sore spot in  
that it is extremely difficult for us to keep abreast of  
technical documents in the fields of interest.

As a consequence, I should like to raise a flag in order  
that this lonely outpost be put on distribution of suitable  
documents. We shall maintain availability of same at  
[ ] to assure access for the concerned parties.

Very truly yours,

*Dick*
